

# Crime Admin User Portal

Iteration 1

# Team members

John Symanski

Jude King

Ryan Schlechty

Dawson Davis

Carter Jeurissen

# Client Information

Chuqlab: Based out of Indianapolis

Crime miner software: Software transcribes video and audio and allows you to search through transcriptions for keywords

# Mentor Feedback

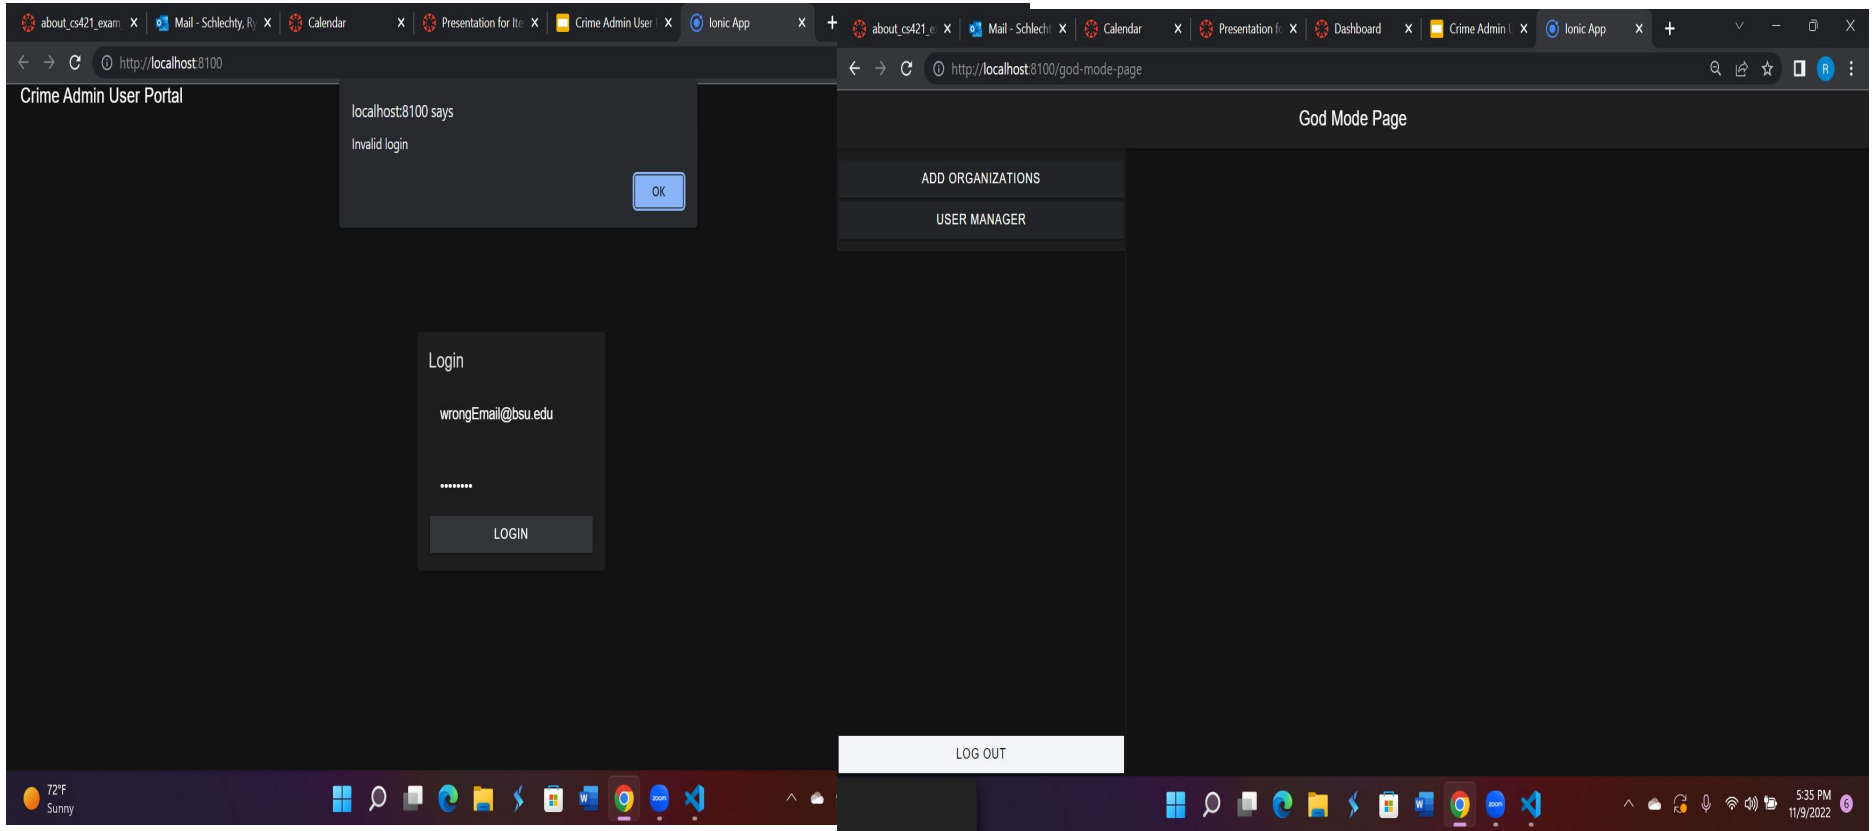

From our mid-iteration meeting our mentor Casey gave us a positive response to the work we had so far, mainly focusing on the usability and functionality of our software for the first iteration for our client.

For the pre-client meeting with our mentor to wrap iteration 1 out, we showed off what we had gotten done once again from the time difference. He mainly gave clarification on what needed to be set for presentations, with our client and in class, as well as ideas for commands that a user can use to check all installations inside the development.md file.

# Client Feedback

- Client liked what we had so far, a lot of his feedback was talking about future things we have to do and what we can expand on from what we have as of now.
- We plan on shifting from having our application local to having it reach out to a mimic database.

# Login Feature

# Add Organizations Feature

Organization Manager

# Add Users Feature

The screenshot shows the 'User Manager' application interface. At the top right is a 'BACK TO MAIN' button. Below it is a 'User Input' section with the following fields:

- ID: 3323
- Email: user@bsu.edu
- Is Admin: ☐

A 'SUBMIT' button is located at the bottom of the input section. Below the input section is a table titled 'Users' with the following data:

ID	Email	Is Admin	
123	jaking2@bsu.edu	true	DELETE
456	someadminemail@bsu.edu	true	DELETE
789	someuseremail@bsu.edu	false	DELETE

This screenshot is identical to the previous one, but with an additional row in the 'Users' table, representing the user that was just added:

ID	Email	Is Admin	
123	jaking2@bsu.edu	true	DELETE
456	someadminemail@bsu.edu	true	DELETE
789	someuseremail@bsu.edu	false	DELETE
3323	user@bsu.edu	false	DELETE

# Delete User Feature

about\_cs421\_exam x Mail - Schlechty, Ry x Calendar x Presentation for Itel x Crime Admin User x Ionic App x
